

Additional declaration¹ to the Export Health Certificate for Fresh Pig Meat from Sweden to Canada

Certificate reference number

I, the undersigned official veterinarian certifies, with regards to African Swine Fever (ASF), the products or by-products of swine described in the certificate:

- were not derived from any animals that originated in farms located in any infected zone or restricted zone due to ASF. This includes all areas listed as a restricted zone in part I, II and III of Annex I to Commission Implementing Regulation 2021/605, and,
- were not derived from animals slaughtered or processed in an establishment that also slaughters, processes or handles animals originating from any area listed as a restricted zone in part I, II or III of Annex I to Commission Implementing Regulation 2021/605, and,
- were not derived from animals slaughtered and/or processed in establishments located in any area listed as a restricted zone in part II and III of Annex I to Commission Implementing Regulation 2021/605.
