**IV. ORIGIN AND HEALTH ATTESTATION**

I, the undersigned official veterinarian, certify that:

- 1. The beef and beef offal described above were processed under sanitary conditions in accordance with the laws and regulations in Sweden. The laws and regulations of Sweden have been deemed to be equivalent to the Japan Food Sanitation Law and the Japanese Abattoir Law.
- 2. All the required conditions described in the "Sweden Export Verification Program – Japan" were fulfilled.
- 3.
  - 1) The cattle slaughtered for the production of the exported beef and beef offal to Japan are born and raised only in Sweden; or directly and legally imported from countries deemed eligible by Japan to export beef and beef offal to Japan (eligible countries) and raised in Sweden;

And

The slaughtered cattle are found to be sound and healthy as a result of ante- and post-mortem inspections conducted by veterinary inspectors of the animal health authorities of Sweden in the designated facilities at the time of slaughter.(\*)

Or

2) The beef and beef offal are directly and legally imported from the eligible countries and that completely meet all the requirements in the following items:

- A. the meat is derived from cattle which are born and raised only in the eligible countries.
- B. the meat is handled only in the facilities designated as eligible for handling meat to be exported to Japan by the government authorities of the eligible countries.
- C. the meat is derived from cattle which are free from any evidence of animal infectious diseases as a result of ante- and post-mortem inspections conducted by the official veterinarians of the eligible countries at the designated facilities.
- D. the meat is directly and legally imported to Sweden from the eligible countries without transiting through countries other than the said countries and is accompanied by the inspection certificates issued by the government authorities of the said countries.
- E. the meat is free from any evidence of animal infectious diseases as a result of import inspection conducted by the animal health authorities of Sweden and is directly carried into the designated facilities in Sweden after the said inspection.(\*)  
 (\* ) Delete as appropriate

- 4. The slaughtered cattle are not suspect or confirmed BSE cases, or cohorts of BSE cases, as defined in the Terrestrial Animal Health Code adopted by the World Organisation for Animal Health (OIE).
- 5. The exported beef and beef offal to Japan are handled at the designated facilities in such a way as to prevent contamination with any causative agents of animal infectious diseases until shipment to Japan.
